

PRACHI BAPAT

Graphic Designer | Front-end Developer | Painter

WWW.PRACHI.BAPAT.ME

Experienced graphics designer for 3 years. Technical expertise and out-of-box thinking. I have a unique mix of creative, hard-working, time management, and technical skills. I design and develop services for customers of all sizes, specializing in creating stylish, modern websites.

My passion is to design digital user experiences through the bold interface and meaningful interactions. Currently, I am a student at VanArts, Canada. I am from an art background and like doodling and sketching whenever I get time. Paintings act as a stress buster for me.
